<b>Molly:</b> My journey at VIVID started when I'd done a two weeks work experience course and I loved it so much that I wanted to come back to VIVID. I've done it, I've loved VIVID they have been brilliant, and it just sets you up for life.	Molly is sitting in one of our VIVID offices, speaking to the interviewer who is off camera.  Footage of Molly and her colleague talking in the diner.
<b>Leon:</b> The great thing about my apprenticeship is I've learned a handful of soft skills along the way. An example of this would be time management which has allowed me to plan project work from start to finish. <b>Leon:</b> I think the best part of my apprenticeship is getting the position I have now and the friends I've made along the way.	Leon is sitting in one of our VIVID offices, speaking to the interviewer who is off camera.
<b>Molly:</b> The people around me at VIVID have been brilliant. I've worked in four different, departments got to know how everyone works as a team, they all have their different styles of working and my line manager, my team, the people around me in the offices, they've been so great with my training and my learning and I'm hoping to carry that forward, especially being a woman in trade.
